

Jets in Proton-Proton and Heavy-Ion Collisions

Prague, August 12-14, 2010

Program committee

Jaroslav Bielcik (CTU Prague)
Jana Bielcikova (NPI ASCR Prague)
Nicolas Borghini (University of Bielefeld)
Matteo Cacciari (LPTHE Paris)
Brian Cole (Columbia University)
Jiri Dolejsi (Charles University Prague)
John Harris (Yale University)
Peter Jacobs (LBNL)
Marco van Leeuwen (University of Utrecht)
Vojtech Petracek (CTU Prague)
Gunther Roland (MIT)
Carlos Salgado (University of Santiago de Compostela)

Topics

- Jet reconstruction with large backgrounds
- Jet quenching observables at RHIC and LHC
- Particle identification in jets
- Heavy-quark tagged jets
- Underlying event
- Theory and phenomenology of jet quenching
- Monte Carlo generators for jet quenching
